**HANDS-FREE SUPPORT FOR
DIGITAL AND PAPER MEDIA**

Mükava

ENGAGE SENIORS IN READING AND USING DIGITAL TOOLS

Mükava ergonomic reading tables hold tablets, phones, and reading materials. Mükava is ideal for seniors who suffer from physical limitations or pain in their necks, shoulders, hands or arms. These hands-free products help alleviate pain and facilitate healthy posture. They also improve quality of life through renewed enjoyment of reading and digital tools.

Mükava Products:

- Were developed with older users in mind to provide a pain-free way for older adults to sharpen their minds, enjoy daily life and stay engaged through reading and using mobile devices
- Allow older users to use their traditional media in maximum comfort
- Are designed for ease in manipulation and should be necessary part of everything common room, library, entertainment centers or even the exercise room
- Can be positioned for anyone no matter whether they are in bed, in a chair or standing

“Approximately two in five seniors indicate that they have a “physical or health condition that makes reading difficult or challenging” or a “disability, handicap, or chronic disease that prevents them from fully participating in many common daily activities.”

Pew Research Center: Older Adults & Technology Use, April 2014
